

General Information

Name and address of high school: Bishop Kenny High School 1055 Kingman Ave, Jacksonville, FL
32207

Year of High School graduation: 2023

Name and address of college: Davidson College 405 N Main St, Davidson, NC 28035

Anticipated Graduation Year: 2027 Major: undecided: Pre-medicine track

Academic Information

College GPA: 3.0

List SAT and/or ACT College Board Examination Scores: (Scores not appearing in your official transcripts may be submitted if attested by a high school official.)

1. SAT English: 650
2. SAT Math: 660
3. Total SAT: 1310

Describe any extraordinary responsibilities you have at home or any information you think may be relevant for the judges to see. none

ESSAY

500 words or less

(Essay must be printed or typed. Provide as an attachment)

How does the construction industry positively impact your day-to-day life?

OPTIONAL

Provide as an attachment any other information you would like to share (i.e. Academic honors, Extra-Curricular activities, community service, work experience etc.)

AUTHORIZATION

Should you be selected to receive the NUCANF Scholarship, we would like your permission to include portions of your application and your essay in our scholarship book which is available for members to review, and in various association communications and publications. Your signature below will indicate your approval.

Signature of Applicant

Please email your completed application along with pertinent information no later than May 15, 2024 to:

nucanf@gmail.com

You will receive an email within a day or two confirming that I have received your application. Please contact me at (904) 612-8692 with questions.

How the Construction Industry Enhances Everyday Life

The construction industry fundamentally shapes our daily lives, offering far-reaching benefits that are often overlooked. By developing infrastructure, housing, and public spaces, this sector meets basic human needs, drives economic growth, enhances safety, and fosters community bonds.

One of the most evident impacts of the construction industry on everyday life is in housing. Homes are more than just shelters; they are personal havens where individuals relax, families connect, and personal milestones are celebrated. The construction industry's role in building and maintaining diverse housing options ensures that people can find comfortable living spaces that fit their budgets and lifestyle needs. Modern construction techniques and materials have also made homes more energy-efficient and environmentally friendly, directly benefiting occupants by reducing energy costs and promoting healthier living environments.

Beyond housing, the construction industry is crucial in developing infrastructure that supports daily activities. Roads, bridges, and public transit systems built by this sector facilitate efficient travel, whether commuting to work, visiting family, or transporting goods across regions. The well-planned infrastructure reduces traffic congestion, shortens travel times, and enhances safety, directly influencing our daily productivity and stress levels.

Moreover, construction plays a pivotal role in emergency preparedness and response. Buildings like hospitals, fire stations, and schools are strategically designed and constructed to withstand natural disasters and provide safe zones for communities. The industry's focus on adhering to stringent safety standards and incorporating advanced engineering practices ensures that these critical structures remain operational when needed, safeguarding lives and offering essential services during crises.

The construction industry also significantly impacts economic well-being. It is a significant employer, providing jobs to millions worldwide, from skilled workers like engineers and architects to laborers and administrative professionals. These jobs support individual workers and their families and fuel broader economic activity by increasing demand for materials, tools, and services. The ripple effect stimulates growth in various sectors, from manufacturing to retail, underlining the industry's role as a cornerstone of economic development.

Educational and recreational facilities are another area where the construction industry makes a daily impact. Schools, universities, libraries, and sports complexes are not just built; they are thoughtfully

designed to create environments that enhance learning, foster social interactions, and promote physical health. These spaces contribute to the well-being and development of communities, nurturing future generations and providing venues for cultural and community activities.

Furthermore, the industry's influence extends to urban environments. By building parks, squares, and other public spaces, the industry helps create aesthetically pleasing environments that promote social interaction and community engagement. These spaces offer residents opportunities for recreation and relaxation, contributing to mental health and quality of life.

In conclusion, the construction industry's impact on day-to-day life is profound. From the homes we live in and the roads we travel on to the places we work and relax, the structures built by this industry form the backbone of our daily experiences. The construction industry meets immediate needs by innovating and focusing on sustainable practices. It prepares our communities for future challenges, enhancing daily life in numerous ways.

Extra-Curricular Activities:

High School:

National Science Honor Society

National Math Honor Society

National English Honor Society

National History Honor Society

National Latin Honor Society

National Honor Society

2x Swimming State Champion

All American

AP Scholar with distinction

Swim Instructor

Applicant #7

A. Deuberg
Registrar, Davidson College

January 22, 2023

To Admissions Officer and colleagues:

I have had the pleasure to know and teach [redacted] for the last four years. I have been one of [redacted] coaches for the Bishop Kenny swim team for the last four years and I now have the honor of teaching [redacted] in AP Calculus. [redacted] is a driven scholar and athlete. I have had the great pleasure in watching [redacted] grow for the last four years both academically and athletically.

[redacted] is an exceptional student. [redacted] has a great desire to achieve academically carrying a G.P.A. of 4.26 and currently ranked in the top 20% of [redacted] class. [redacted] has been accepted to several honor societies at Bishop Kenny including National Honor Society as well as Latin and Science Honor Societies. [redacted] is also a member of Rho Kappa and Mu Alpha Theta.

As [redacted] is finishing [redacted] high school career, [redacted] has accumulated many volunteer hours over the last years. [redacted] serves as a student ambassador for various events a school. [redacted] has also served [redacted] community through various programs. [redacted] is a swim instructor at a local pool and is a coach for children on various swim teams. When [redacted] is not coaching swim, [redacted] volunteers as a timer for swim meets. [redacted] also helps to lead younger students in Chemistry labs showing them [redacted] love of science. [redacted] also is a very active member of [redacted] church as an alter server at Sunday masses. Throughout high school, [redacted] has also held parttime job as a soccer referee for several age groups.

As an athlete, [redacted] is dedicated to training to be the best that [redacted] can be. [redacted] has been with Bishop Kenny swim team for the last for years and served as one of our leaders this year. For outstanding work in the pool, [redacted] has qualified for the state meet for the last four years and helped the team to win the state meet last year and this year. [redacted] is a USA swimming futures championship qualifier as well and participated in North Carolina at one of the national meets.

[redacted] is a very well-rounded individual and has my highest recommendation. [redacted] is dedicated, caring young [redacted] that would be a huge asset to your school. If you should need any more information about [redacted] please contact me at any time.

Sincerely,

Stephanie Jaeger
 Math Teacher/Assistant Swim Coach
